About the Academy

The Academy of Medical Sciences is the independent, expert voice of biomedical and health research in the UK.

Our vision is good health for all supported by the best research and evidence.

Our mission is to help create an open and progressive research sector to improve the health of people everywhere.

- We support researchers with innovative funding and career development opportunities.
- We help create a more sustainable environment for delivering outstanding research.
- We help researchers to work with academia, the public, charities, policy makers, health and social care partners, and industry to make the greatest difference to health.

Our new strategy for 2022-2032 focusses on the following strategic priorities.

1. Influence policy and practice to improve the lives of patients, the public and communities
2. Support UK biomedical and health research to strengthen its global competitiveness and reputation
3. Support the next generation of researchers to reach their full potential
4. Work with our partners to increase the Academy’s impact on global health
5. Build our resources to ensure our long-term independence and effectiveness

Working at the Academy

A welcome from our President, Professor Dame Anne Johnson

The COVID-19 pandemic was without a doubt a defining moment for the Academy. It is for times like this that the Academy was created – and we will be needed more than ever in the coming years to respond effectively to post-pandemic opportunities.

The staff at the Academy excel at bringing together diverse voices to solve complex problems. It is through this approach that we can help solve problems such as limiting the health impacts of climate change, harnessing artificial intelligence to improve health and reducing health inequalities.

With science at the forefront of the UK’s aspirations to improve health, international reputation and economy, there couldn’t be a better time to join the dedicated staff team working at the Academy.

Our staff

We have grown rapidly in recent years and continue to expand our team and the work they do. We currently have a staff of 70 people, all are guided by the following values:

- We strive for excellence
- We act on evidence
- We behave with integrity
- We collaborate widely
- We are inclusive and actively seek diversity in all forms

We support our staff to be agile, kind and resilient in everything they do.

Our talented and committed staff team who embody our values are one of our key strengths. We put physical and mental wellbeing at the heart of our organisational culture and the way we work.

What you can expect working with us

We are committed to working towards full equality of opportunity in our own organisation, practices and activities, and in the wider academic workforce. You can see more information on our EDI values, principles, and behaviours here.

We want to ensure diversity of thought and experience in all we do and for our staff to be able to bring every part of themselves to work. We actively encourage and welcome applicants from all backgrounds to help us engage with the diverse community we serve.

We will happily make reasonable adjustments for applicants as needed. Please do specify these at the time of applying. We welcome discussion of different working arrangements and locations with any successful applicant.

Our staff culture is shaped by the message of our MedSciLife campaign which states that a life outside work is not an extra, but an integral part of who we are. We encourage different working styles and practices to enable passions and achievements outside work to support individuals’ careers.

To enable all staff to find a working pattern that best suits them and the needs of their role, we have agile working principles in place and are investing in hybrid and digital technologies. For those who want it, we provide daily access to desks in our London office Monday to Friday. To support connections in the office, our onsite venue team regularly provide free lunches for staff in our lounge and hot drinks are available in our small staff café.
The role

This will be a key role working within the Academy responsible for developing and implementing programmes that align workforce with key business strategies and initiatives.

Key accountabilities
