Global University Systems (GUS) is an international network of higher education institutions brought together by a shared passion for affordable, industry-relevant skills. GUS offers a variety of programmes, including bachelor's and master's programmes, vocational training, English language courses, and business and executive training. If someone decides to study at one of our institutions - whether on campus in Europe, North America or even at home - they join a network of 87,000 students worldwide. We are based in some of the largest cities in the world, with campuses in Berlin, Hamburg, London, Paris, Toronto, Chicago, Vancouver and Singapore.

In Germany, Global University Systems includes the University of Europe for Applied Sciences, the Berlin School of Business and Innovation (BSBI), the vocational school for design htk academy (HTK) and the service provider GUS Germany GmbH (GGG). Our universities are characterized by special practicality, internationality, modern teaching content and the personal interaction with the students. Every day, our employees contribute with innovative ideas to bring us closer to our goals - quality, service, internationality and growth. Our courses are the result of direct exchanges between our professors, employees and our students, as well as the demand from potential employers.

We are looking for the following at our **UE innovation hub and THINK CAMPUS in Potsdam** with start in Berlin:
